JOB EXPERIENCE:

University of North Carolina at Greensboro: Health & Human Sciences – Web Development   May 2023–Present
Assistant Webmaster
- Migrated each department's website to a new theme and domain.
- Ensured consistency between all sites, in both visuals and content.
- Organized sitemaps for maximum efficiency and coherency.
- Created the visual designs for each web page within WordPress's block editor.
- Set SEO standards for administrators and future users.

Calix Inc. – Administration & Web Development   Jul. 2022–Sep. 2022
Partner Program Intern
- Collected information from various parties from various departments and consolidated it into a comprehensive requirements document.
- Designed the User Interface for a new Partner Relationship Management program within Salesforce's capabilities and limitations.
- Communicated with the development team as designs were implemented and provided refining feedback.
- Translated technical explanations into business-oriented language and vice versa.
- Recommended and implemented new data collection protocols for efficiency and accuracy.

University of North Carolina at Greensboro: Mathematics & Statistics – Administration   Jan. 2022–May 2023
Office Assistant
- Maintained the WordPress-hosted department website, ensuring all information was up to date, accurate, and relevant.
- Maintained multiple Google-hosted websites for annual conferences sponsored by the department.
- Acted as a versatile resource for staff and faculty.
- Designed posters for the degrees and programs offered by the department.
- Designed and distributed posters for scheduled colloquia, talks, and conferences.
- Designed three departmental newsletters for print and electronic distribution.
- Managed the department social media pages, using Hootsuite to create relevant posts and schedule them at regular intervals.
